

Inkjet Printer

Smart Handheld Printing Platform

Multilingual Support

Support Chinese, English, Japanese, French, German, Spanish, Portuguese and Russian etc. languages

Wifi

Support Wifi connection
Achieve inkjet printer real-time online printing

Four-wheel Module

Selectable four-wheel adjustable module, the printing distance can be adjusted according to the printing object

Features

Selectable Languages

Chinese, English, Japanese, French, German, Spanish, Portuguese and Russian

Multi-line Printing

Support simultaneous printing multiple lines of data

Printable Heights

1~12.7mm

Interface

New user interface, using 5inch, 1280*720 resolution capacitive screen, touch operation interface

Input Methods

Selectable input methods for different languages

Data Edition

Flexible data edition, support various data sources, same object can be inserted into different data sources

Authority Registration

Selectable different registration authorities, can customized registration for special functions

Database (registration function)

Inkjet printer can connect database via Wifi, real-time print database content

Throw Distance

Standard 300dpi wheel

Selectable four-wheel adjustable module, the printing distance can be adjusted according to the printing object

Port

USB2.0 port: Support U-Disk

Power Supply

AC 90V-240V/50-60HZ (Dedicated power supply charger)

Product Certifications

CE、FCC

Printing Objects

Print text, image and barcode etc. variable data

Counters

Flexible setting for counters, customizable system of counters

Date and Time

Variety modes of date and time available

Built-in Encoder

Use electronic encoder, smaller and lighter inkjet printer

Print Monitoring and Respray

Real-time monitoring content of print data, and real-time respray failed content

Barcodes

PCA, UPCE, EAN13, EAN8, INT25, CODE39, CODE128, EAN128, PDF417, DATAMATRIX, QR

User Management

Set different operation authorities according to the needs of users

Battery

Number: Standard 2pcs rechargeable batteries with large capacity

Capacity: Each battery is comprised of three 2200mAh battery module

Voltage: 11.1V--12.6V

Lifetime: >300 cycle number

Stand-by time: >8H

Continuous printing time: >3H; (Depends on testing)

Ink Management

Automatically recognize the ink types, and identify the optimum printing parameters

Guarantee of using genuine original HP ink

Automatic detection system for remaining ink volume

Environment

Working Environment: -10°-- +45°C; 10%-85%RH

Storage Environment: -25°-- +55°C; 10%-90%RH

Specifications

Dimensions: 160*220* 70.5mm/ 6.3*8.6*2.7 inch

Weight: 700g (excluding ink cartridge)
